## Java 8 JDK

```
<h4><strong>To follow this tutorial:</strong></h4>The viewer
<strong>MUST</strong> <strong>install</strong> <strong>Java 8

JDK </strong>on their machine:<strong> </strong><a
href="http://www.oracle.com/technetwork/java/javase/downloads/jdk8-
downloads-2133151.html" rel="noopener noreferrer"
target="_blank">http://www.oracle.com/technetwork/java/javase/downloads/jdk8
-downloads-2133151.html</a> The viewer
<strong>SHOULD</strong> <strong>install</strong> <strong>IntelliJ Community
Edition</strong>: <a href="https://www.jetbrains.com/idea/download/"rel="noopener noreferrer"
target="_blank">https://www.jetbrains.com/idea/download/</a>An other Java IDE such as Eclipse could work, but won't closely match the videos</pbody></pbody></pbody>
```

## Client Configurations

```
<h4><strong>Client Configurations </strong></h4>There exist a lot of
options to:configure producer: <a
href="https://kafka.apache.org/documentation/#producerconfigs" rel="noopener
noreferrer"
target="_blank">https://kafka.apache.org/documentation/#producerconfigs</a>configure consumers: <a
href="https://kafka.apache.org/documentation/#consumerconfigs" rel="noopener
noreferrer"
target="_blank">https://kafka.apache.org/documentation/#consumerconfigs" rel="noopener
noreferrer"
target="_blank">https://kafka.apache.org/documentation/#consumerconfigs</a><strong>The most important options are discussed in the
real-world project section, coming next
```
